## EXECUTIVE SUMMARY

All the 05 Micro Watershed of the Project Area of Watershed Veerbhadrapatti, IWMP-IV, District :-Badhoi (St Ravidas Nagar), Uttar Pradesh Coded and named as 2B3A3j1d-Lakhno, 2B3A3j2a-Veerbhadrapatti, 2B3A3j3a-Ghatmpur, 2B3A3j3b-Kasidaha, 2B3A3j3c-Verampur are situated in Abholi, Digh, Gyanpur and Suriyawan which is 12-16 km away from the district head quarter. The Latitudinal and Longitudinal position of the project is From 25° 19' 58.88" N to 25° 26' 11.02" N and From 82° 21' 00.47" E to 82° 28' 33.22" E. Micro Watershed wise details are given in the DPR. The project consist of 05 Micro Watershed consist 120 villages, 87 Gram Panchayat (GP) with total Geographical Area of 9576.54 ha out of which 5760 ha area is proposed to be used for treatment with total outlay of Rs. 691.20 Lakhs under the Integrated Watershed Management Programme (IWMP). 29 nos. of Watershed Committees (WCs) have been formed at GP Level. The Project Implementing Agency (PIA) is Bhumi Sanrakshan Adhikari (BSA), Department of Irrigation and Water Resources, District-District Badhoi (St Ravidas Nagar), Uttar Pradesh.

All Micro Watershed fall in agro-climatic zone of Vindhyan Zone. The Project is situated at an elevation of 84 m to 94 m above mean sea level and has relief from with mean elevation of 89.18 m, general topography of the Micro Watershed is described in the LCC table given in the DPR. Spatial distribution of different slope classes has been prepared using Arc GIS. Slope has been divided into 04 categories viz. 0 - 0.5%, 0.51 – 1%, 1.01 – 2% and 2.01 – 3%. Areal extent of different slope categories of the Geographical area of the Project is shown in the DPR . The dominant slope category is 0.51-1% (4040.48 ha) followed by 0.00-0.50% (2993.81 ha) .

The population of the project area is 176622 covering 24636 HH with an average family size 7.17 in number. SC/ST represent 22.24%. Literacy rate 55.91% and number of BPL HH 5704 (23.15%) and Assetless HH 3424 (13.90%) details are given in the DPR. The land holding pattern given in the DPR. comprises 16103 (75.91%) marginal farmers who dominate the cluster followed by 3453 (16.28%) small farmers and 1656 (7.81%) large farmers. The land use pattern of the Project area is given in the LULC Table. In Project area more than 70% of agriculture land is rain fed. The productivity of these crops is significantly lower than the National, State and District average. Superfood like Quinva and Chia are proposed to be introduced on pilot basis in the project area.

The average rainfall of the area is 486.85 mm with 47 rainy days. May and June are the hottest Months (47 deg. Cent.) and lowest temperature with (1 deg. Cent.) are recorded in November. Expected run-off is worked out as 30 % of the average annual rainfall (486.85 mm/Annum) at 146.05 mm/year with an average soil loss 8-10 tonnes/ha/year. Around 65-70% in the project area depend on agriculture and allied activity for their livelihood. The present agriculture scenario is unable to provide either sustenance or employment opportunities round the year due to low land holding capacity, poor soil productivity, lack of irrigation facility and absence of proper agronomy practices. Ultimately it leads to unemployment and distress migration of about 18973 persons from the project area.

Integrated Watershed Management Programme is prioritized on the basis of thirteen parameters namely Poverty Index, Percentage of SC, Actual Wages, Percentage of small and marginal farmers, Ground water status, Moisture Index, Area under rain fed agriculture, Drinking water situation in the area, Percentage of the degraded land, Productivity potential of the land, Continuity of another watershed that has already been developed/treated, Cluster approach for plain or for hilly terrain. The Weightage Point of the project is 95.

The Proposed cluster of Micro watershed is characterized by low productivity of resources, prevalence of widespread poverty, lack of irrigation and safe drinking water facility, non availability of employment opportunities and compelled unskilled migration from the project area. Integrated Watershed Management Programme aims at improving the situation of the area during the project period.

## EXECUTIVE SUMMARY

HH Survey, PRA, PSA, FGDs and PIPs were conducted to assess the people's/farmer's needs/ preferences, problems thrust area of farming system, livestock production and their suggestions were also invited. After technical analysis these technically the exercise of Participatory Net Planning (PNP) was conducted to finalize the proposed location for various proposed activities using GPS under the head of Land Development (including Afforestation, Horticulture and Agriculture), Soil and Moisture Conservation (SMC), Water Harvesting Structures (WHS) alongwith proposed intervention in the field of farming system, livestock production, micro-enterprises etc. After the whole exercise, Annual Action Plan (AAP) of Capacity Building, Livelihood Activities, Production System and Micro-enterprises, Watershed Development Works, Convergence have been prepared. The Watershed Committees (WCs) have been formed at Gram Panchayat level, SHGs (Shelf Help Groups) and User Groups (UGs) have also been constituted. Farmers were also informed about the amount/rate of contribution as per the category of farmers for various activities, user charges and Watershed Development Fund (WDF). Farmers were willing to participate in the IWMP Programme and ready to contribute accordingly for availing/sharing the benefits. We propose renovation of 109 nos. of existing Ponds, 03 MCD, 27 nos. of recharge structure in abandoned well and 69 Recharge pit. under Water Harvesting Structures which will provide life saving irrigation in the area of 323.03 ha. Consequently, there should be an overall increase in the productivity of major crops in the project area.

The Natural Resource Management (NRM) intervention such as Soil and Moisture Conservation (SMC), Water Harvesting Structures (WHS), Land Development Activities like Afforestation, fuel & fodder and Horticulture development activities are proposed to benefit 55-60% of the families. It is expected that the NRM activities will increase the ground water table by 1-2 meters, increase irrigated command area by additional 323.03 ha., Additionally, it will check soil erosion, reduce run off, improve moisture availability and improve the soil quality/health. More than 70% of the project area will be brought under treatment under project area during project period of 5 years.

The carrying capacity will be enhanced in cereal production, oilseed production, pulses production, Vegetable production, and fruit production substantially. Establishment of various Micro-enterprises will ensure the livelihood of families of the project area with increase of additional income per annum. These interventions are aimed to reduce the migration up to 30%.

Several activities are proposed under afforestation, fuel & fodder and horticulture which will help in increase the area under vegetative cover from 478.86 ha to 763.90 ha, an increase in the area under afforestation cover from 263.03 ha to 310.08 ha, under fuel and fodder cover from 48.18 ha to 91.62 ha and under horticulture cover from 167.65 ha to 362.20 ha and . Productivity of all the important crops under Kharif, Rabi and Zaid is proposed to be increased substantially. Crop wise details have been described in the DPR. Similarly, milk and other livestock produce is also expected to increase, details of which are given in the chapter -'Livestock Population and Productivity (Pre and Post Project status).

## EXECUTIVE SUMMARY

The project has been formulated with specific vision within the stipulated time frame of 5 years. Soil erosion will be checked from current rate of 8.10 tonnes/ha/annum through Soil and Moisture Conservation (SMC) measures. Through Renovation and Construction of 112 number of Water Harvesting Structures having storage capacity of 64.61 ham an additional area 323.03 ha will be brought under supplementary irrigation which will lead towards crop productivity. The rain fed agriculture project area comes under kharif and Rabi "Crops stabilization" through proper management of water, supply of quality in-puts and adoption of new farming techniques, crop productivity will be increased substantially. Increase in irrigation command area will increase the 2nd cropping area through proper management of water resources. There will be Increase in income level of landless HH from base income through various alternative livelihood options in the project area on sustainable basis. Maximum number of population will attain food security after successful implementation of the project. Most of the HH of the project area will have access to safe and hygienic drinking water. The capacity building programme will enhance enough awareness, to take decision of development of all the covered village under the project after 5 years. The overall vision of the project is to uplift the socio economic condition of the community through various proposed intervention.

The role of the PIA is to facilitate the programme by supporting various Community based organization (CBOs) like Watershed Committee (WCs), Self Help Groups (SHGs) and User's Gropups (UGs). The role of the Watershed Committee will be to implement the programme as well as assure the contribution of WDF for NRM and PSME activities. The secretary of the Watershed Committee will be the most responsible person. A dedicated Watershed Development Team (WDTs) will work as a catalyst under the supervision of PIA to support various Community based organization (CBOs) for successful implementation of the project. A total number of 29 WCs, 191 SHGs and 112 UGs will be linked with various project activities under the project.

Rapport building and awareness generation of community members is the first stage for building self confidence to take decisions for implementation of various activities under the project. The broad head includes EPA, I&CB, WDW for natural resource management, Livelihood promotion, Productivity Enhancement & Micro Enterprises, Monitoring and Evaluation, Convergence with other department, consolidation/exit protocol. The major proposed activities are Entry Point Activity (4% of the total cost Rs. 27.65 Lakhs) which consist of Well Repair, the WDW work (56% of the total cost Rs. 387.07 Lakhs) Water Harvesting Structures like Renovation of Pond, MCD, Recharge Pit and Recharge structure in abandon well, Land Development Afforestation, Fuel & Fodder and Horticulture Plantation. Under WDW activity Water Harvesting Structures and Land Development will be taken up from IWMP funds and the rest consist of Soil and Moisture Conservation (SMC) works such as construction of Field Bund, Marginal Bund and Peripheral Bund, etc. will be covered through convergence. The livelihood for Assetless section (9% of the total cost Rs. 62.21 Lakhs) consist of Goatary, Poultry, Animal Husbandry, Vermi Compost Unit, Mini Village Shops, Candle Making, Pickle making, Tailoring, Bamboo Basket making, etc. The Production system and Micro Enterprises (10% of the total cost Rs. 69.12 Lakhs) consist of promotion of innovarive practices for superfood like quinoa & chia etc., HYV of Crop Demonstration, Vegetable Cultivation, Floriculture, Organic Farming, Distribution of Mini Ag. Equipment, Livestock Activities, Micro Irrigation, Protected Farming and establishment of various Micro Enterprises. A comprehensive Institutional Development and Capacity Building Plan (5% of the total cost Rs. 34.56 Lakhs) have been designed for various CBO like WCs, SHGs and UGs. The basic purpose of the capacity building programme be for project orientation and skill improvement. Skill/Trade Training under livelihood activities are planned through the convergence from NRLM/Skill Development Mission.

## EXECUTIVE SUMMARY

The aim of the convergence is to saturate the planned WDW and PS&ME activities in the project area. A total amount of Rs. 298.28 Lakhs will be spent through convergence from MANREGA, NHM, Department of Agriculture, NRLM/Skill Development Mission and other Line Department. During the Convergence Process SLNA, WCDC and PIA will take the leading role to facilitate the convergence process.

Suitable systems and processes are propose to be designed and implemented to manage and maintain all the assets created under the project with the help of WDF collected from the beneficiaries in the form of contribution and deposited in the WDF Bank Account. WDF will not be utilized during the project period. At the time of exit protocol it is important that the community should be strong enough to maintain the development works and the systems during the project period. A specific benefit sharing mechanism for common assets will be formulated through User's Group. Proper utilization of WDF will occur after the project period for need based work for the community's assets. The Watershed Committee will be also responsible for conflict management within User's Groups and SHGs. The Watershed Committee will take the leading role with the Institutional Linkages with government department, banks, other financial institutions as well as various NGOs. A system of social audit will be established for proper management of fund and further development work.

The present average family income of Assetless Rs. 17700/- per annum and for farmers Rs. 22600 /-, with the proposed intervention under the project, are expected to increase to Rs. 23000/- and Rs. 29400/- respectively after the completion of the project. NPV of the project is proposed to be Rs. 38954128.28 at 15% discounted factor of net benefits. IRR of project is 34.94% and B : CR at 15% discounted factor of Net benefits is 1.62 respectively.

## General Profile of the Project

|  |  |   |

| S.No. | Objectives of IWMP  |
|-------|---|
| 1     | The main objectives of the IWMP are to restore the ecological balance by harnessing, conserving and developing degraded natural resources such as soil, vegetative cover and water. |
| 2     | Prevention of soil, run-off; rain water harvesting and recharging of the ground water table.  |
| 3     | Regeneration of natural vegetation  |
| 4     | Introduction of multi-cropping and diverse agro-based activities, which help to provide sustainable livelihoods to the people residing in the watershed area.                       |
| 5     | Promote development of cost effective and proven technologies to support watershed management   |

| Problem Thrust Area of Livestock Production in the Project Area of |   | Veerbhadrapatti, IWMP-IV  | District- | Bhadohi (St Ravidas Nagar) |
|--|---|---|-----------|----------------------------|
| S.No.  | Problem Thrust Area   | Proposed Intervention   |           |                            |
| 1  | Local and indigenous breeds.  | Breed improvement through Artificial Insemination (AI) and Natural Process (Buck/Bull). |           |                            |
| 2  | Lack of improved breed in animals.  | Improvement/Replacement of existing breed of animals.                                   |           |                            |
| 3  | Low Productivity of animals   | Improvement of animal health through vaccination & deworming                            |           |                            |
| 4  | Poor Facilities of Animal Health and Care (vaccination, de-worming and feeding) | Awareness about animal vaccination, Mineral mixture and green fodder.                   |           |                            |
| 5  | Problems of infertility and balanced nutrition in dairy cattle and buffaloes.   | Promote practice of balance ration for cattle and buffaloes                             |           |                            |
| 6  | No use of supplementary feeds   | Introduction of improved breed of goats & control of internal parasite(Buck)            |           |                            |
| 7  | Improper feeding practices  | Promoting dairy, goatary and poultry as main enterprise for the resource rich farmers   |           |                            |
| 8  | Low production of Milk & Meat   | Formation and conduction of self help groups for socio-economic up-liftment.            |           |                            |
| 9  | Inadequate availability of Dry/GreenFodder                                      | Distribution of Fodder Seed Kits  |           |                            |
|  |   | Provide Chaff Cutter  |           |                            |

## Livelihood Planning

We propose to bring meaningful participation of primary stakeholders, in the identification of livelihood options for different members in the project area. Particularly the landless/asset less, marginal community including SC and women. A community based action planning process involves Participatory Situation Analysis (PSA), preparation of inventory of existing livelihood activities, possibilities of extension of existing livelihood activities and its sustainability, identification of new livelihood options/income generation activities, formation of landless/asset less, marginal community including SC and women into new Self Help Groups (SHGs), capacity building /skill training requirement, generation of new ideas and planning of viable livelihood options, plan for disbursement of seed money/revolving fund, recovery plan of disbursed seed money, reinvestment plan of recovered amount of seed money, funding of major livelihood activities/ formation of federation, establishment of backward forward linkages, establishment of Public Private Partnership (PPP) Model.

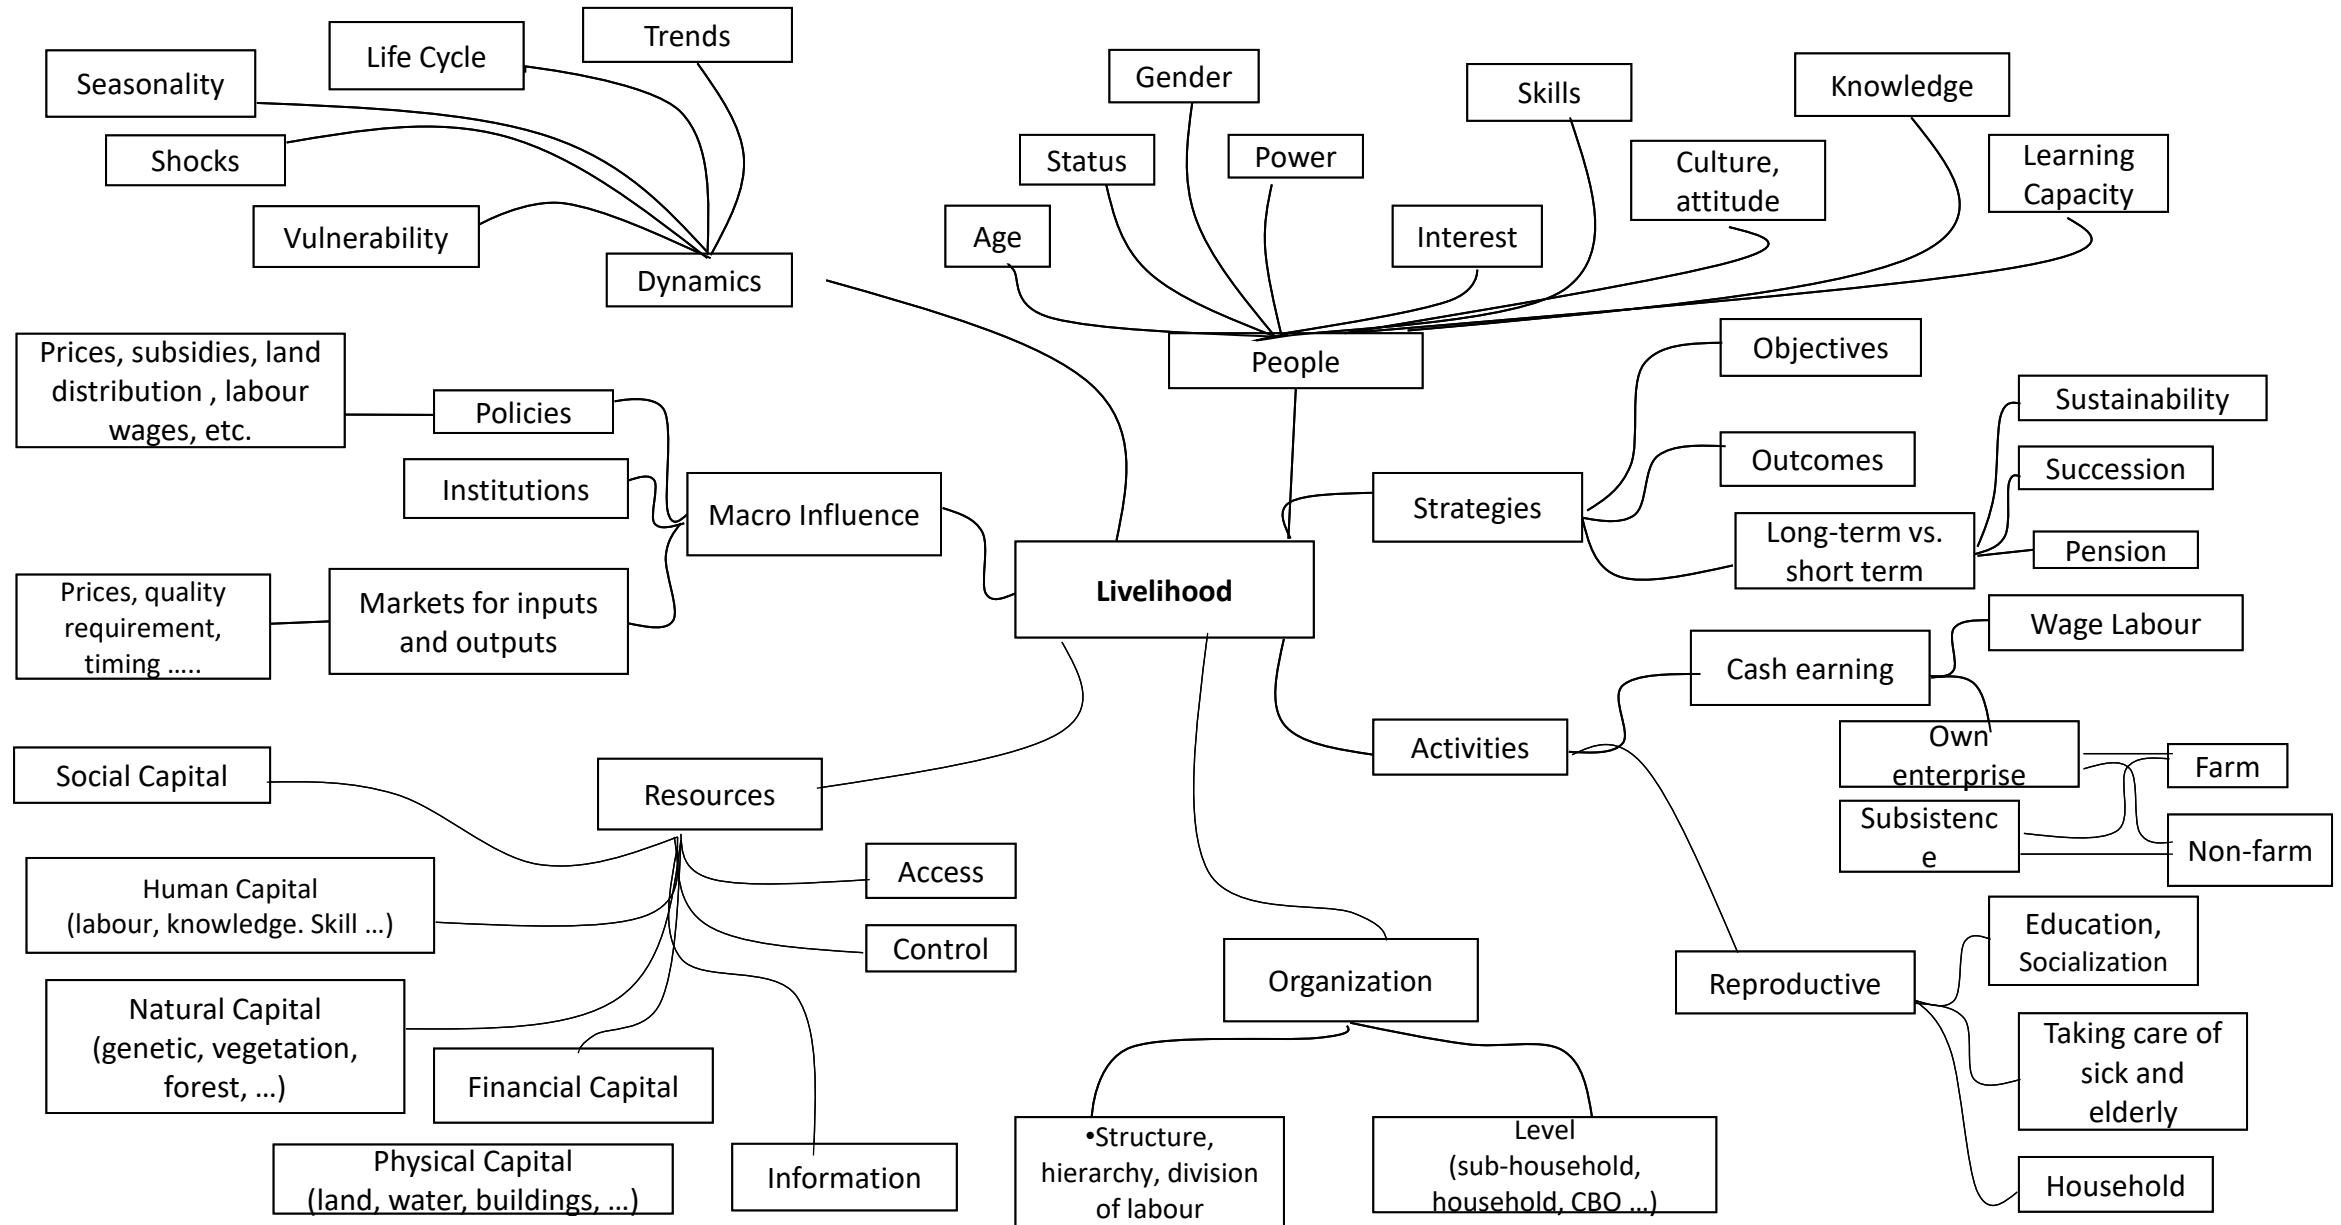

### **PSA Process Adopted**

The most Important priority is to involve the people in the identification of target groups and their needs for livelihood options and preparing of micro-plans.

## A CONCEPT MAP USED FOR LIVELIHOOD ANALYSIS IN THE PROJECT AREA

### **Eligibility for availing the funds under the Livelihood Component :-**

- The beneficiaries should be marginalized communities, including SC, landless/assetless people, women, etc., among which preference will be given to women, specially female headed households, SCs, as identified under the wealth ranking conducted as a part of the PRA exercise.
- It may be ensured that the selected SHG does not have more than one member from a household.
- Priority may be given to women SHGs.

### **Budget, procedure of release and administration:-**

- 9% of the total project fund i.e. Rs. 62.21 Lakhs is earmarked as the livelihood component for the benefit of marginalized communities, including SC, landless/assetless people, women, etc.
- This earmarked amount shall be taken out of the total project fund as a grant to WC in its bank account, which in turn will be used to provide financial assistance, (seed money for revolving fund to SHGs and a grant -n -aid for enterprising SHGs/ SHG federations to undertake major livelihood activities).

At least 70% of this livelihood fund i.e. Rs. 43.55 Lakhs will be used to support/seed money revolving fund for SHGs, including support to enterprising individuals, and a maximum of 30% i.e. Rs. 18.66 Lakhs for supporting grant-in-aid to enterprising SHGs/ SHG federations.

### **Seed Money for Revolving Fund:-**

#### **•Seed money for SHGs**

- Each SHG shall make an application for financial assistance to the WC. WC in its regular meeting, will consider these applications and pass resolution regarding its approval of financial assistance to SHGs based on merit of the case. The representatives of applicant SHGs may also be present in such meetings of the WC. The resolution will clearly rank the approved cases, based on the priorities and preferences, so that the support may be extended to all the eligible SHGs in order of ranking.
- The initial amount up to Rs. 25,000 may be given as seed money to a SHG as the revolving fund after their proposed activity(s) has been approved by the WC in its meeting and included in the resolution.
- The SHGs will return the seed money on monthly basis and that could be reinvested in the same or other SHGs as per the resolution passed in meeting of WC. The amount and number of monthly installments may be decided by WC based on the type of activity, capacity of the group and their savings. The amount may be returned in a maximum of 18 months.

- The payment will be made by cheque after the respective SHG has opened a joint bank account with two signatories from the SHG members.
- The SHGs may use the amount for a combined activity and/ or shall provide the above amount to the concerned members as individual loan against a specific activity for improving income. In case of individual support under the SHGs, the individual will be accountable to the main SHGs for finances and performance.
- Seed money for Enterprising Individuals**
- The enterprising individual shall apply for financial assistance to the WC, along with a viable livelihood proposal. WC in its regular meeting, will consider such applications and recommend to WCDC, through PIA, the amount to be provided as seed money to such individual(s) as the revolving fund after their proposed activity(s) has been approved by the WC in its meeting and included in the resolution based on the merits of the case.
- The applicants may also be present in such meetings of the WC. The resolution will clearly rank the approved cases, based on the priorities and preferences, so that the support may be extended to all the eligible enterprising individuals in order of ranking.
- The WC may release financial assistance to these enterprising individuals after approval by WCDC. Such individuals will return the seed money on monthly basis and that could be reinvested further as per the resolution passed in meeting of WC. The amount and number of monthly installments may be decided by WC based on the type of activity and capacity of the individual. The amount may be returned in a maximum of 18 months.
- The payment will be made by account payee cheque in such individual cases.

#### **Funding for Major Livelihood activities for enterprising SHGs/ SHG federation:-**

- The funding for major livelihood activities will enable the enterprising SHGs/ SHG federations (with at least 5 enterprising SHGs) to avail a composite loan for undertaking major livelihood activities or to expand/upscale activities as recommended by the WC and approved by WCDC in consultation with line departments and bank.
- For such activities, a composite loan (grant in aid and bank loan) can be availed depending upon the type of activity. The grant-in-aid will be 50% of the cost of the activity or Rs. 2.00 lakh whichever is less. However, grant in aid shall not exceed 30% of the livelihood component (i.e. 9% of the total project cost) of the project.
- SLNA may issue detailed modalities for payment of grant-in-aid for funding major livelihood activities.

#### **Disbursement Plan of Seed Money :-**

Seed Money to the SHGs will be disbursed after fulfilling the following conditions –

- SHGs has been formed.
- Regular Meeting of the SHGs is being conducted.
- Regular saving is being made. Internal lending and its recovery is being made properly.
- Up-keep of record is being maintained. Account has been opened in the bank.
- Mandatory training has been organised for the SHGs.
- Required Skill Training has also been organised.
- Amount of Seed Money will be subject to maximum of 4 times of their up to date saving of the respective SHGs subject to the maximum limit of the Activity-wise limit of the seed money is given in Table of Unit Cost for LA activities. -

**Recovery Plan of Seed Money :-** Recovery of Seed Money will be made in maximum of 18 equal installments. We propose to give 03 months grace

**Reinvestment Plan of Seed Money :-** Recovered amount of seed money may be reinvested to the same SHG or the new SHGs as the case may be. Reinvestment to the existing SHGs will be made subject to fulfilling the following conditions-

- Minimum 50% of the seed money has been recovered.
- Recovery of seed money has been made regularly without any default.
- Assessment has been about the improvement in livelihood status of SHGs.
- Willingness of SHGs to take more seed money to upscale/ expand their activity.
- Recovery of the reinvested amount of seed money to the same SHG will be made as per the above recovery plan of seed money.

**Composition of committee for the sanction, disbursement and reinvestment of seed money-** A 6-member Committee will be constituted under the

**Plan For Formation of Federation :-** We propose to go for the formation of federation in the consolidation phase of the project and 30% of the livelihood component under the project cost i.e. 30% of the project cost or Rs. 18.66 Lakhs is earmarked for it.

**Funding for Major Livelihood activities/Federation :-**

- The funding for major livelihood activities will enable the enterprising SHGs/ SHG federations (with at least 5 enterprising SHGs) to avail a composite loan for undertaking major livelihood activities or to expand/upscale activities as recommended by the WC and approved by WCDC in consultation with line departments and bank.
- For such activities, a composite loan (grant in aid and bank loan) can be availed depending upon the type of activity. The grant -n-aid will be 50% of the cost of the activity or Rs. 2.00 Lakhs whichever is less. However, grant in aid shall not exceed 30% of the livelihood component (i.e. 9% of the total project cost) of the project. We proposed 20% margin money as SHG contribution for availing composite loan under funding for major livelihood activities for Enterprising SHGs/Federation of SHGs.

**Capacity Building for Beneficiaries :-**

- The capacity building needs of the marginalized communities, including SC, landless/assetless people, women, etc has be included in the livelihood action plan prepared after the livelihood analysis. The capacity building will be aim at skill enhancement and not just knowledge and information. The capacity building component should be planned by the livelihood expert of WDT/Livelihood agency in consultation with WC for making necessary budgetary provision on annual basis.
- The expenditure for the training for livelihood component will be met from 5% of the budget component of the project cost earmarked for institution and capacity building.
- It shall be mandatory to provide skill based training on the following components apart from the other training needs expressed by SHGs:
  - Book Keeping (cash book and ledger registers, preparing budget, maintenance of accounts etc.).
  - Minutes of meeting (proceedings) and follow up.
  - Exposure visits and discussions in the specialized areas of livestock, agriculture/horticulture, agro-forestry, fisheries and other watershed related income generating activities, micro-enterprises, micro-credit, etc.
  - Knowledge of market and pricing, value addition, alternate institutions including Farmers Production Companies etc.
  - Other related aspects.
  - Activity based Skill Training

| <b>Problem Thrust Area of Production System in the Project Area of</b> |   |   |
|--|---|---|
| <b>Veerbhadrappatti, IWMP-IV</b>                                       |   | <b>District- Bhadohi (St Ravidas Nagar)</b>   |
| <b>S.No.</b>   | <b>Production System</b>  |   |
|  | <b>Problem Thrust Area</b>  | <b>Proposed Intervention</b>  |
| 1  | Cluster of IWMP Project area lacks the high value agro forestry plantations and the existing plantations do not have technical & developmental support. | Soil and water conservation, watershed management and supply of quality planting material   |
| 2  | Non-mechanised farming system   | Distribution of Agriculture Equipments/Pumps and Irrigation Pipe  |
| 3  | No Crop Diversification/Traditional Farming System  | Promotion and adoption of Crop Divesification   |
| 4  | Use of local varieties and impure seed materials  | Integrated Weed management in different crops (Distribution of Weeder).   |
| 5  | Broadcast sowing  | Use of bio-fertilizers and fertilizers scheduling for oil seeds, pulses and other crops.  |
| 6  | Imbalance use of fertilizer and its placement.  | Soil testing and use of balance dose of fertilizer.   |
|  | Poor Soil Health  | Promotion, Adoption and Application of Vermi/Nadep Compost  |
| 7  | No use of Bio-fertilizer and Bio-pesticides   | Promotion, Adoption and Application of Bio-fertilizer and Bio-pesticides  |
| 8  | No seed treatments  | Seed treatment with fungicides, insecticides & rhizobium culture.   |
| 9  | Unavailability of irrigation facilities .   | Creation of Additional Surface Water Storage Capacity.  |
| 10   | Non-availability of Quality Horticulture/Agro Plants  | Introduction of nursery management and orchard management<br>Ensure Quality Horticulture/Agro Plants  |
| 11   | Low Technological Awareness   | Awareness Generation, promotion and adoption of Innovative Agriculture Tecnology IPM, SRI, SWI, INM, Micro Irrigation Protected Farming, Value addition, promotion of super food crops, etc Through Capacity Building, interface with scientist and Exposure Visit. |
| 12   | Less Income Generating Crops  | Promoting farmers to grow Vegetables, Floriculture, Spices, medicinal plants and Super food like Chia and Quinoa, etc.  |

## **MONITORING AND EVALUATION**

### **Monitoring (1% of the Project Cost) Rs. 6.912 Lakhs**

#### **Regular Monitoring of the project have to be carried out at each stage. We propose -**

1. On line monitoring as per format prescribed by the Government of India in the Department of Land Resources (DoLR) is to be done continuously. Monitoring will include process and outcome monitoring.
2. The Project Implementing Agency (PIA) will compulsorily submit monthly/quarterly Progress Reports countersigned by the member of Watershed Development Team to the SLNA vis-à-vis WCDC.
3. The WCDC will have one member exclusively for monitoring.
4. The WCDC will ensure uploading of monitoring data complete in all aspects to SLNA and DoLR as per Format and guidelines issued from time to time.

#### **Budget provision for Monitoring-**

Project Fund-There is fund provision amounting to Rs. 1% of the total Project Cost in the DPR. The year wise breakup of the allotted amount is also prescribed in

- Online monitoring must become a feature of all projects.
- Monitoring should include process and outcome monitoring.
- The PIA shall submit monthly/quarterly progress reports (countersigned by the Watershed Committee (WC) President) to the WCDC for further submission to the SLNA.
- The WCDC will have one member exclusively responsible for monitoring.

#### **Different streams of monitoring are proposed**

- Internal Monitoring by Project Teams (PIA/WCDC)
- Progress Monitoring
- GIS/ Web Based On-Line Monitoring
- Self Monitoring by communities
- Sustainability Monitoring
- Social Audits (atleast one Social Audit Event should be organized on Watershed Committee wise on yearly basis.
- Independent and External Monitoring by independent agencies
- Process Monitoring

#### **Streams of Monitoring Different Streams of monitoring as prescribed by the Department of Land Resources, Government of India are to be**

1. Internal monitoring by Project Team. The PIA and the WCDC must arrange adequate arrangement for internal monitoring of the Project.
2. Progress of the Quarter must be reported in time without delay and must be monitored so that the time schedule as per approved DPR is strictly followed. If there
3. GIS Web based On-line monitoring must be done as per laid down directives as well as instructions from SLNA and DoLR, Government of India issued from time to time.
4. Self Monitoring by Communities is to be done from time to time.
5. Sustainability of the outputs due to interventions in the project area should be monitored.
6. Arrangements for Independent and external monitoring as well as social auditing should be appropriately made.
7. Time to time monitoring of anticipated outcomes such as Soil Loss, Ground Water Recharge, amelioration of environmental parameters, Production enhancement, Income generation, Employment generation, increase in vegetative cover, status of Water Harvesting Structures, additional area brought under irrigation, etc. must be recorded and reported to WCDC/SLNA.

Under the project Area implementation programme a separate Watershed Development Fund Account will be opened and maintained as per the IWMP Guidelines.

To control the activities at the stage of implementing, proper plans was formed for monitoring and Evaluation. Project monitoring is one of the important components in

### Three Tiers of Monitoring:

The following three tiers of monitoring are planned:

**First Tier (Monitoring of activities) :**

This will be carried out by PIA along with WDT and WC to monitor the implementation of all activities as per the action plan. The monitoring also aims at ensuring

**Second Tier (Monitoring of outputs) :**

To check the outputs of the activities, PIA along with WDT monitors as per the logical frame work. The indicators are selected considering the broad objectives of the

**Third Tier (Monitoring of Outcomes) :**

Project Implementation Agency along with the WC will monitor the overall outcomes of the objectives as per the logical frame. The outcomes level monitoring will start in the second year and continue on an annual basis. Most of the information can be available from the sets of output level indicators. Participatory methods will be used at the time of monitoring the activities.

The methods of collecting sample data for the monitoring activities will be clearly documented in the monitoring report. The detail of the monitoring system is presented in the table as under.

| Tiers of Monitoring | Basis of monitoring    | Frequency of monitoring                                    | Orientation of the Indicator | Monitoring by  |
|---------------------|------------------------|--|------------------------------|--|
| First tier          | Immediate result basis | Regular Monthly Monitoring                                 | Activity oriented            | Local People organizations   |
| Second Tier         | Monitoring of Outputs  | Regular monitoring ( Quarterly, half yearly and annually ) | Objective oriented           | Internal project team (WDT, PIA & Experts)   |
| Third Tier          | Monitoring of Outcomes | Annually but monitoring start from second year onwards.    | Goal Oriented                | <ul style="list-style-type: none"> <li>• Specified monitoring team formed by WCDC</li> <li>• External Monitoring team by PIA/SLNA</li> </ul> |

**Vigilance and Monitoring Committees :-**

- For every work sanctioned under the Scheme, there should be a local vigilance and monitoring committee, composed of members of the locality or village where the work is undertaken, to monitor the progress and quality of work while it is in progress. The Gram Sabha will elect the members of this committee and ensure that SC/STs and women are represented on it.
- The Implementing Agency should apprise this committee of estimates regarding the work, time frame and quality parameters. The final report of the committee
- Local beneficiary committees may also be constituted for effective articulation of their entitlements and their access to them. The PIA members will be responsible for ensuring that local

### **Evaluation (1% of the Project Cost) - Rs. 6.912 Lakhs**

1.Evaluation will include physical, financial and social audit of the work done.

2.Panel of evaluating agencies-

a)At Central Level there is a panel of evaluating agencies. A minimum percentage of evaluations and impact studies will be carried out by National Level agencies.

b)There is a SLNA level panel of evaluators approved by the Departmental Nodal Agency at SLNA Level. This panel includes only institutions not individuals.

c)The panel to be entrusted for evaluation of the project will not belong to the project area.

d)Evaluators will evaluate the project work as per specific instructions of the Government of India as well as of the SLNA.

e)The Fund release by Government of India on a favourable report from the evaluators.

f)An amount of Rs 1% of the Project Cost is provided in the DPR for evaluation of the project.

Evaluation will be done on the completion of following phase :-

i.Preparatory phase.

ii.Work Phase.

iii.Consolidation Phase.

#### **Budget provision for Monitoring-**

Project Fund-There is fund provision amounting to Rs. 1% of the total Project Cost in the DPR. The year wise breakup of the allotted amount is also prescribed in the table.

| Microwatershed-wise Financial Break-up of Monitoring Component (Year-wise -1% of the Project Cost) Area in ha Amount in Lakhs |          |                  |      |                 |       |       |       |       |       |                  |       |       |       |       |           |                   |                            |       |       |       |       |                 |       |       |       |       |       |                 |       |       |       |       |       |            |      |     |    |  |       |

## **CONSOLIDATION AND WITHDRAWAL PHASE (3% of the Project Cost)**

The last two years are the Consolidation and Withdrawal Phase of the Watershed development programme. This is the crucial phase of the project as the local institutions will be trained to manage the project independently after withdrawal of the Government Institutions from the project area.

The main purpose of this phase is to create innovative NRM based, sustainable livelihoods and raise/enhance productivity levels of the augmented resources and local economic development plans developed during the watershed works phase.

### **CONSOLIDATION AND WITHDRAWAL STRATEGY**

Success of the programme depends on Different watershed interventions and sustainability can only be achieved through active participation of community. It will be on capacity building and empowerment of stakeholders. The WC SHGs UGs etc. will be on established trained and strengthened to continue development after withdraw of PIA. By building economic activities through CBOs community participation will be sustained. The need based and demand driven interventions will reduce dependency on subsidies. Contribution from the community will be ensured for the entire activities to develop sense of belongingness and the contribution will be deposited to the account of watershed development fund (WDF). It will also be strengthening through donations from the individuals and institutions and the CBOs will be trained to run watershed as business model on sustainable basis. The tangible economic benefits alongwith empowerment by PIA will empower the CBOs to develop and sustain the watershed activities after withdrawal establishment of Public Private Partnership (PPP) Model.

category of farmers for various activities, user charges and Watershed Developm

### **The consolidation phase will also include:-**

- 1.To prepare the project completion report.
- 2.Documentation of success stories.
- 3.Making films leaflets bulletins and the lessons learnt.
- 4.Watershed plus Activities
- 5.The expenditure will be done as per the common guidelines for watershed development projects.
- 6.The completion report will reflect the development on following aspects:-
  - a)Productivity enhancement.
  - b)Nutritional Security.
  - c)Risk minimization (Integrated farming system water harvesting and protected cultivation value addition and improved marketing).
  - d)Profitability.
  - e)Livelihood security (skill enhancement capacity building increased employment in agriculture and allied enterprises reduction in migration etc.).

The activities those will be under taken during this phase are:

- 1.Completion of various leftover works under taken during work phase.
- 2.Consensus among the villagers to take up any new works out of any unspent amount.
- 3.Preparation of Project completion report with details about status of each asset.
- 4.Documentation of successful experiences as well as lessons learnt for future use.
- 5.Evolving mechanisms to improve the sustainability of various interventions made in the project area.
- 6.Formulation of mechanisms for allocation of user's right over common property resources.
- 7.Formulation of mechanisms to collect user charges for common property resources (CPR).
- 8.Creation of awareness and building capacity of the community to repair, maintain and protection of common property resources.
- 9.Training the user groups for optimum utilization of the developed natural resources.

- 10.Up scaling of successful experiences related to farm production system and off- farm livelihood activities undertaken through revolving fund under the project as well as credit and technical support from external institutions.
- 11.Evolving marketing arrangements of the farm produce as well as the off-farm and other micro enterprises.
- 12.Formation of Farmer's Federation for credit, input procurement, sale of local produce etc.

Under the project Area for the implementation of programme a separate Watershed Development Fund Account will be opened and maintained as per the IWMP Guidelines.

**Withdrawal Mechanism:**

- 1.At the end of the project, The Watershed Committee is to take the responsibility for post project management .For which the Memorandum of Agreement is to be formulated between the PIA and Watershed Committee on the following terms and conditions.
- 2.The list of assets created under EPA, NRM, Production system & microenterprises and Livelihood support system is to be prepared with joint signature of the Chairman, Secretary of the Watershed committee and PIA. The Watershed Committee will retain one copy of the list for future reference.
- 3.The amount lying unspent as on closing date will be transferred to the Watershed Development Fund.
- 4.Watershed Committee will be authorised to use only one Bank account i.e. WDF account.
- 5.Yearly auditing of the accounts by the Chartered Accountant will be mandatory and to be adhered strictly.
- 6.The office bearer of the Watershed Committee shall involve all the community irrespective of caste, creed and religion.
- 7.The Gram Sabha shall have the right to decide the user charges to be collected from the beneficiaries which shall be deposited under the watershed development fund.
- 8.The cost of repair and maintenance of the assets created out of NRM component shall be borne out of Watershed development fund by using maximum 50% of the amount collected in a year.
- 9.The WDF account will primarily run as revolving fund.
- 10.No individual beneficiary should be granted any sort of grant or financial assistance in any form.
- 11.The SHGs and UGs shall have the eligibility to take loan from the WDF with marginal interest as decided by Gram Sabha.
- 12.The Watershed Committee is also at their liberty to start new profit making ventures by utilising WDF as security deposit and the profit earned should go to the WDF.
- 13.The remuneration for the Watershed secretary will be finalised in the Gram Sabha.
- 14.The Watershed Committee may collect financial assistance from any other sources to augment the WDF. All donations, interests, fines and fees shall be deposited in the WDF.
- 15.The WDF Bank Account shall be jointly operated and maintained as per the IWMP guidelines by the Chairman and Secretary of the watershed committee.
- 16.All the expenditure shall be authenticated by the Watershed committee.
- 17.Annual meeting of the Gram Sabha is mandatory. However it may meet at any time if required.
- 18.The Watershed Committee should meet in every quarter to review the income and expenditure.
- 19.Any change in the Watershed Committee or its office bearer shall be made once it is resolved in the Gram Sabha. The Gram Sabha should believe in rotational leadership.
- 20.All the group representatives, at least one from each group shall be ensured in the Watershed Committee.
- 21.The decision approved and resolved in the Gram Sabha will only be implemented by the Watershed Committee.
- 22.In case of any embezzlement of fund, the Administrative system shall proceed according to Rules and Laws.
- 23.In the event of Gram Sabha and watershed Committee become defunct, the assets created under the project and WDF will be transferred to the Panchayat.

In the consolidation phase, the PIA would initiate works which lead to furtherance of the benefits and to sustainability of impacts. Please refer the Common Guidelines, 2008 for detailed explanation.

However, emphasis will be given to the following activities -

Promoting **judicious use of water** by scaling up of Micro Irrigation Systems; encouraging more and more farmers to use such techniques

Scaling up of successful interventions in the project

Scaling up forward and backward **linkages** established during the works phase, especially, credit and marketing linkages

Scaling up of people's collectives, like making the WCs/SHGs/UGs into **Federations** at project level or district level

Documentation of successful interventions and farmer-cases focusing on the learning there-from

Prepare the **Project Completion Report (PCR)**; **the PIA shall submit the PCR to the WCDC in the format provided for the purpose**

Prepare a **withdrawal strategy** in such a way that the project is smoothly handed over to the Gram Sabha and the Gram Sabha delegates the responsibilities to the Watershed Committee for future management

Prepare a strategy for **Post-Project Management**.

Distributing roles and responsibilities to different stakeholders including village level institutions

Delegating authority to various individuals/institutions in relation to maintenance and up keep of the physical structures created during the works phase

**Watershed Committee Wise Financial Break-up of Consolidation Component at Various Level (Area in ha-Amount in Lakhs)**

$$\text{IRR} \% = 30 + \frac{19414654.18 - ((19414654.18 + (2936883.99)) * (35 - 30))}{30 - 35} = 34.94$$

## BANK ACCOUNTS & WATERSHED DEVELOPMENT FUND (WDF)

### Bank Accounts :-

Following Bank Accounts will be opened in the Bank and operated in the manner prescribed below :-

WCDC Account :- Jointly Operated by District Magistrate & BSA (PIA)

#### •P.I.A. Account :-

1. Joint S.B. Account in the name of PIA
2. It will be opened in the Government Recognized Bank.
3. It will be operated jointly by BSA & Accountant of P.I.A.

#### •Project Fund Account of WC :-

1. Joint S.B. Account in the name of Watershed Project for the Watershed Fund received from the PIA
2. It will be opened in the local Bank Branch
3. It will be operated jointly by

I) Secretary

- WC

II) Nominated Member

- WDT

Structure of Watershed Committee (WC) :-

|                                 | Category | Members |
|---------------------------------|----------|---------|
| •Chairman                       | :        | 1       |
| •Secretary                      | :        | 1       |
| •Representing User Group        | :        | 2-3     |
| 1. Representing Self Help Group | :        | 2-3     |
| 2. Representing Women           | :        | 1       |
| 3. Representing SC              | :        | 1       |
| 4. Representing Landless        | :        | 1       |
| 5. Representing WDT             | :        | 1       |
| Total No. of Members            | :        | 10-12   |

Office Bearer of WC :-

1. Chairman

Secretary

#### •WDF Account :-

### Opening of Watershed Development Fund Accounts :-

Under the project Area for the implementation of programme a separate Watershed Development Fund Account will be opened and maintained as per the IWMP Guidelines.

Following activities will be taken for mobilizing the beneficiaries contribution –

- Briefing the beneficiaries about the purpose, utility and rate of contribution.

- Informing the beneficiaries about the implications of non-payment of contribution.
- Motivating beneficiaries for making contribution.
- Collecting and depositing the contribution in the Watershed Development Fund.
- WDT & WC will be responsible for obtaining the contribution.

**Utilization of WDF –**

1. Watershed Development Fund shall be in operation only after the project period.

- It will be operated jointly by the President of the Gram Panchayat and any member from the SHG nominated by the Gram Sabha.
- This fund should be utilised only with the approval of watershed committee for the maintenance and development of Community Assets, CPR and administrative cost if watershed secretary will continue after the project period with the approval of WC.
- No money shall be withdrawn during the project period.
- Watershed Project Fund should not be used for individual work.

**WATERSHED DEVELOPMENT FUND (WDF)**

1. One of the mandatory conditions for selection of villages for watershed projects is Farmer's contribution towards the Watershed Development Fund (WDF). The contributions to WDF shall be a minimum 10% of the cost of NRM works executed on private lands only. However, in case of SC, small and marginal farmers, the minimum contribution shall be 5% of the cost of NRM works executed on their lands.

2. For other cost intensive farming system activities such as Aquaculture, Horticulture, Agro-forestry, Animal Husbandry etc on private land directly benefiting the individual farmers, the contribution of farmers will be 20% for General category and 10% for SC & ST beneficiaries.

3. These contributions would be acceptable either in cash at the time of execution of works or voluntary labour. A sum equivalent to the monetary value of the voluntary labour would be transferred from the watershed project account to the WDF bank account that will be distinct from the Watershed Committee (WC) bank account. User charges, sales proceeds and disposal amounts of intermediate usufruct rights shall also be deposited in the WDF bank account.

4. Income earned from assets created under the project on common property resources shall also be credited to WDF.

5. The Secretary, Watershed Committee (WC) shall maintain a completely separate account of the income and expenditure of the WDF. Rules for operation of the fund should be prepared by the Watershed Committee (WC) and ratified by the Gram Sabha. The WDF bank account should be operated by the President of the Gram Panchayat and any member from the SHG nominated by the Gram Sabha. Alternatively, the guidelines for the management and utilization of the WDF may be evolved by the concerned Nodal Ministry.

6. After completion of Phase II, at least 50% of the WDF funds shall be reserved for maintenance of assets created on community land or for common use under the project. Works taken up on private land shall not be eligible for repair/maintenance out of this Fund. The remaining money may be used as a revolving fund to advance loans to the villagers of the project area who have contributed to the fund. Individuals as well as charitable institutions should be encouraged to contribute generously to this Fund.

**User Charges -**

The Gram Sabha through the Watershed Committee (WC) shall put in place mechanism for collecting user charges. No charge will be taken from landless, destitute or disabled / widow headed house holds for work done on private or public land. The user charges collected shall be credited to the WDF for maintenance of assets created during the project.

**Watershed Development Fund**

One of the mandatory conditions for IWMP projects is people's contribution towards the Watershed Development Fund (WDF). The contributions to WDF shall be a minimum 10% of the cost of NRM works executed on private lands only. However, in case of SC/ST, small and marginal farmers, the minimum contribution shall be 5% of the cost of NRM works executed on their lands. However, for other cost intensive farming system activities such as Aquaculture, Horticulture, Agro-forestry, Animal Husbandry etc on private land directly benefiting the individual farmers, the contribution of farmers will be 20% for General category and 10% for SC & ST beneficiaries and the remaining cost of the activities i.e. 80% for the General and 90% for SC/ST category will come from the project funds subject to a maximum limit of an amount equal to double of the standard unit cost norm for Watershed Development Project.

These contributions would be acceptable either in cash at the time of execution of works or voluntary labour. A sum equivalent to the monetary value of the voluntary labour would be transferred from the watershed project account to the WDF bank account that will be distinct from the Watershed Committee (WC) bank account. User charges, sales proceeds and disposal amounts of intermediate usufruct rights shall also be deposited in the WDF bank account. Common Guidelines for Watershed Development Projects Income earned from assets created under the project on common property resources shall also be credited to WDF.

The Secretary, Watershed Committee (WC) shall maintain a completely separate account of the income and expenditure of the WDF. Rules for operation of the fund should be prepared by the Watershed Committee (WC) and ratified by the Gram Sabha. The WDF bank account should be operated by the President of the Gram Panchayat and any member from the SHG nominated by the Gram Sabha. Alternatively, the guidelines for the management and utilization of the WDF may be evolved by the concerned Nodal Ministry.

After completion of Phase II, at least 50% of the WDF funds shall be reserved for maintenance of assets created on community land or for common use under the project. Works taken up on private land shall not be eligible for repair/maintenance out of this Fund. The remaining money may be used as a revolving fund to advance loans to the villagers of the project area who have contributed to the fund. Individuals as well as charitable institutions should be encouraged to contribute generously to this Fund.

## List of Records/Registers to be maintained at different levels

### WCDC:

1. Cheque book register
2. Grants received from Centre/State
3. Grants Distribution Register
4. UCs register for UCs received from PIA/watershed committees
5. Activities wise Physical and Financial Progress Details
6. Technical Sanction Register
7. Administrative Sanction Register
8. Bank Reconciliation statement register
9. Asset Register- Dead-stock Register
10. Meeting Register
11. Training Register
12. Ledger
13. Payments Book
14. Visitor's Book

### PIA Level

1. Register for grants received from states
2. UCs register for UCs to be sent to WCDC
3. Bank pass book/ cheque Book Register
4. Bank Reconciliation statement register
5. UCs register for UCs received from different watershed committees
6. Physical and financial progress report
7. Asset Register- Dead Stock Register
8. Training Register
9. Material Book (EPA)
10. Ledger
11. Payment Book

### Watershed Committee Level

1. Cash book
2. Contingency bill register
3. Voucher register
4. Bank Pass Book Register
5. Bank Reconciliation statement- register
6. Advances/Adjustment register
7. Bank cheque book register
8. Asset Register- dead stock Register
9. Assets Created Register
10. Income register (from watershed assets)
11. WDF Account Register
12. Seed Money Register
13. Register showing physical and financial progress
14. Training Register
15. Technical Sanction Register
16. Administrative Sanction Register
17. Meeting Register (Resolution Book)
18. Material Book Register
19. Stock Register
20. Receipt Book
21. Voucher Book
22. Ledger
23. Account Ledger
24. Bill Book
25. Members' Pass Book Register
26. Attendance Register (for Labour)
27. Payments Register
28. Works wise Expenditure Register
29. Visitor's Book

### SHGs:

1. Meeting Register
2. Fund received Register
3. Bank Pass Book Register
4. Internal Lending/Loan Register
5. Savings Book Register
6. Seed Money Distribution & Recovery Register
7. Training Register
8. Composit Loan/Grant-in-aid Register

**OR Any other Records/Register prescribed by the SLNA/DoLR from time to time**
